

Deck Yard Low Voltage Landscape Lighting Soft-Wash Pro™ LED Hardscape Lights

Product Description

Deck Yard Soft-Wash Pro™ LED Hardscape Light Series consists of four; very low profile strip lights, available in various lengths and colors. Their durable and flexible designs enable mounting under capstones, railings, benches, and other hardscape applications. They can also be used for rooftop and landscape mounting as well. These lights deliver exceptionally wide, diffused illumination without hot spots. They provide a diverse range of lighting solutions and are essential additions to the lighting designer's toolset.

Product Dimensions
