WARNING

TO REDUCE THE RISK OF FIRE OR INJURY TO PERSONS:

- ✓ Please exercise caution when using the lamp, as it tends to HEAT up rapidly. We recommend taking necessary safety measures to ensure optimal usage.
- ✓ For your safety, please refrain from touching the HOT lens, guard, or enclosure. We recommend waiting for the product to cool down before handling it.
- ✓ To prevent any fire hazards, please ensure that the lamp is kept away from materials that may easily catch fire. We appreciate your cooperation in maintaining a safe and secure environment.
- ✓ For safety reasons, we recommend that only a qualified professional install this electrical product.
- ✓ Before attempting to install this unit, ensure all power connections are off for your own safety.

WARRANTY

- We stand behind the quality of our product and offer a 2 year warranty. Kindly ensure that you keep the proof of purchase as it will be required for any warranty claims.
- Warranty will be void if there is any damage due to improper usage or modification to the fixture.
- Failure to comply with the instruction in this manual may increase the risk of damage or injury and will void warranty.

UNB04 Brass Well Light – Premium In-Ground Fixture for Upscale Outdoor Lighting

Elevate your landscape with the UNB04 Brass Well Light by Abba Lighting USA — a powerful and elegant in-ground lighting solution meticulously designed for superior performance and long-lasting durability. Crafted from heavy-duty cast brass and engineered for seamless ground integration, this fixture provides targeted illumination with a sleek, low-profile presence that disappears into the landscape during the day and highlights architectural or natural features at night.

This professional-grade well light is designed to accommodate a replaceable MR16 LED bulb (sold separately), allowing lighting professionals and homeowners to tailor the beam angle, brightness, and color temperature to match the mood and purpose of any outdoor environment. Whether you're lighting up majestic palm trees, architectural columns, statues, or perimeter shrubs, the UNB04 delivers precision and reliability with effortless style.

Its corrosion-resistant solid brass housing ensures maximum longevity in wet or coastal environments, while the built-in protective top trim guards against debris, soil ingress, and water accumulation. Additionally, its integrated PVC sleeve guarantees a secure and easy installation, protecting the fixture from ground movement and soil pressure over time. Available in both Natural Brass and Dark Brass finishes, this fixture blends beautifully with a variety of landscape styles.

✓ Ideal Applications

- Uplighting mature trees, palms, or tall shrubs
- Illuminating architectural columns, arches, or facades
- Highlighting statues, fountains, or garden focal points
- Pathway and driveway accenting in luxury residences
- Professional commercial landscape installations
- Coastal environments requiring corrosion resistance

Engineered for Performance and Ease of Installation

Designed with practicality in mind, the UNB04 includes a removable glare shield and integrated gimbal-style lamp socket to allow easy aiming and directional focus. The pre-installed 20" lead wire makes connections quick and convenient, while the composite PVC sleeve protects the fixture body in recessed or in-ground applications. The unit's compact but powerful design ensures high light output with minimal footprint.

Built to Brave the Elements – IP65 Rated

From heavy rain to dust and debris, the IP65 weatherproof rating ensures that the UNB04 remains sealed against intrusion. Its sealed lens and housing design resist moisture buildup, making it suitable for both dry and wet locations, including turf installations, gravel beds, and planter boxes.

Technical Specifications

Feature Description

 Material Solid Cast Brass

 Lamp Type MR16 (LED Compatible) – Replaceable

 Voltage 12V AC/DC (Low Voltage)

 Color Temperature Depends on selected MR16 (2700K–5000K)

 Beam Angle Varies by MR16 bulb (15° – 60°)

 Shielding Built-in Top Cover Shield

 IP Rating IP65 – Wet Location Rated

 Lead Wire 20" UL-Listed Pre-Stripped Wire

 Certifications CE & RoHS Certified

 Finish: Natural Brass & Dark Brass

STEP-BY-STEP INSTALLATION INSTRUCTIONS

Safety Precautions

- Ensure the power supply is turned off before installation.
- Follow local electrical codes and regulations.
- Wear protective gloves during installation to avoid injury.
- Do not install in areas prone to excessive moisture unless properly sealed.
- Ensure all connections are waterproof for outdoor installations.

1. Preparing the Installation Site

- Select a location that provides the best illumination while avoiding areas prone to standing water.
- If installing in-ground, dig a hole large enough to accommodate the fixture and the wiring.
- If installing in concrete or hard surfaces, ensure proper mounting sleeves or junction boxes are available.

INSTALLATION GUIDE FOR UNB04

2. Wiring Connections

- Turn off the power at the main electrical panel.
- Connect the fixture's low-voltage wires to the main power supply using the provided connectors. Use WN12 (Sold Separately) to Waterproof your connection.
- Secure all wire connections and test for continuity before final installation.
- Use waterproof electrical tape or silicone sealant to protect connections from moisture.

3. Fixture Installation

For In-Ground Installation:

- Place the mounting sleeve (if provided) into the prepared hole.
- Insert the fixture into the sleeve, ensuring it is level and secure
- Use gravel and soil for additional stability.

For Concrete/Hard Surface Installation:

- Secure the fixture using mounting brackets or embedded housing.
- Ensure the fixture is flush with the surface for a clean, professional look.

MAINTENANCE TIPS

- **Regular Inspection:** Periodically check the bracket and fixture to ensure they are still securely mounted and functioning correctly.

SAFETY PRECAUTIONS

- Always wear appropriate safety gear, such as gloves and safety glasses, during installation.
- Ensure the mounting surface is capable of supporting the weight of both the bracket and the lighting fixture.
