WARNING

TO REDUCE THE RISK OF FIRE OR INJURY TO PERSONS:

- ✓ Please exercise caution when using the lamp, as it tends to HEAT up rapidly. We recommend taking necessary safety measures to ensure optimal usage.
- ✓ For your safety, please refrain from touching the HOT lens, guard, or enclosure. We recommend waiting for the product to cool down before handling it.
- ✓ To prevent any fire hazards, please ensure that the lamp is kept away from materials that may easily catch fire. We appreciate your cooperation in maintaining a safe and secure environment.
- ✓ For safety reasons, we recommend that only a qualified professional install this electrical product.
- ✓ Before attempting to install this unit, ensure all power connections are off for your own safety.

WARRANTY

- We stand behind the quality of our product and offer a 2 year warranty. Kindly ensure that you keep the proof of purchase as it will be required for any warranty claims.
- Warranty will be void if there is any damage due to improper usage or modification to the fixture.
- Failure to comply with the instruction in this manual may increase the risk of damage or injury and will void warranty.

UNB06 Brass Well Light with Grill – Heavy-Duty In-Ground Fixture for Precision Uplighting

The UNB06 Brass Well Light with Grill by Abba Lighting USA is a professional-grade in-ground lighting solution engineered for powerful and targeted landscape illumination. Designed for demanding outdoor environments, this well light combines durability, precision, and timeless design—making it ideal for both residential and commercial applications requiring discreet yet effective uplighting.

Crafted from solid cast brass, the UNB06 is built to endure harsh weather conditions, heavy foot traffic, and soil moisture. The fixture features a robust grill cover that not only enhances visual appeal but also protects the internal components from debris and impact. Its naturally weather-resistant finish ages beautifully over time, developing a rich patina that blends seamlessly into outdoor surroundings.

The fixture uses a replaceable MR16 LED lamp (not included), allowing contractors and lighting professionals to customize beam angles and color temperatures according to project needs. Its built-in grill provides directional shielding to minimize glare while improving light control and focus—perfect for accenting columns, statues, trees, or architectural facades with precision.

It's designed to be compatible with 12V AC/DC low-voltage systems and arrives with a 20-inch pre-stripped UL-listed wire lead for straightforward wiring.

Whether you're aiming to spotlight key features in a luxury garden or subtly illuminate pathways and structural elements, the UNB06 offers a performance-focused solution that reflects the excellence Abba Lighting USA is known for.

STEP-BY-STEP INSTALLATION INSTRUCTIONS

Safety Precautions

- Ensure the power supply is turned off before installation.
- Follow local electrical codes and regulations.
- Wear protective gloves during installation to avoid injury.
- Do not install in areas prone to excessive moisture unless properly sealed.
- Ensure all connections are waterproof for outdoor installations.

1. Preparing the Installation Site

- Select a location that provides the best illumination while avoiding areas prone to standing water.
- If installing in-ground, dig a hole large enough to accommodate the fixture and the wiring.
- If installing in concrete or hard surfaces, ensure proper mounting sleeves or junction boxes are available.

INSTALLATION GUIDE FOR UNB06

2. Wiring Connections

- Turn off the power at the main electrical panel.
- Connect the fixture's low-voltage wires to the main power supply using the provided connectors. Use WN12 (Sold Separately) to Waterproof your connection.
- Secure all wire connections and test for continuity before final installation.
- Use waterproof electrical tape or silicone sealant to protect connections from moisture.

3. Fixture Installation

For In-Ground Installation:

- Place the mounting sleeve (if provided) into the prepared hole.
- Insert the fixture into the sleeve, ensuring it is level and secure
- Use gravel and soil for additional stability.

For Concrete/Hard Surface Installation:

- Secure the fixture using mounting brackets or embedded housing.
- Ensure the fixture is flush with the surface for a clean, professional look.

MAINTENANCE TIPS

- **Regular Inspection:** Periodically check the bracket and fixture to ensure they are still securely mounted and functioning correctly.

SAFETY PRECAUTIONS

- Always wear appropriate safety gear, such as gloves and safety glasses, during installation.
- Ensure the mounting surface is capable of supporting the weight of both the bracket and the lighting fixture.
