WARNING

TO REDUCE THE RISK OF FIRE OR INJURY TO PERSONS:

- ✓ Please exercise caution when using the lamp, as it tends to HEAT up rapidly. We recommend taking necessary safety measures to ensure optimal usage.
- ✓ For your safety, please refrain from touching the HOT lens, guard, or enclosure. We recommend waiting for the product to cool down before handling it.
- ✓ To prevent any fire hazards, please ensure that the lamp is kept away from materials that may easily catch fire. We appreciate your cooperation in maintaining a safe and secure environment.
- ✓ For safety reasons, we recommend that only a qualified professional install this electrical product.
- ✓ Before attempting to install this unit, ensure all power connections are off for your own safety.

WARRANTY

- We stand behind the quality of our product and offer a 2 year warranty. Kindly ensure that you keep the proof of purchase as it will be required for any warranty claims.
- Warranty will be void if there is any damage due to improper usage or modification to the fixture.
- Failure to comply with the instruction in this manual may increase the risk of damage or injury and will void warranty.

UNB07 Brass 5-Way Directional Well Light **Architectural-Grade Multi-Directional In-Ground Fixture – Unmatched Versatility & Precision Lighting**

The UNB07 Brass 5-Way Directional Well Light from Abba Lighting USA is a robust, high-performance landscape lighting solution designed to provide unparalleled control over beam direction and coverage. Built for demanding outdoor applications, this in-ground fixture is constructed with solid cast brass, offering exceptional resistance to corrosion, weathering, and impact. Its unique 5-way directional design allows precise, customizable light output, making it ideal for highlighting architectural details, trees, statues, walls, and other focal points with symmetrical or multidirectional illumination.

The UNB07 allows light to be emitted through five adjustable openings strategically placed around the housing, giving you full command over light distribution. Whether you're uplighting from beneath a tree canopy, washing a structure with light, or creating overlapping beam effects in a courtyard or garden, this fixture provides unmatched flexibility with a clean and professional finish.

The unit is compatible with MR16 LED lamps, giving users the freedom to choose from a wide range of wattages, color temperatures, beam spreads, and CRI levels for tailored lighting experiences. The fixture operates on low-voltage 12V AC/DC systems, ensuring safe and energy-efficient performance.

A Heavy-duty housing for secure and easy in-ground mounting, allowing contractors and installers to finish jobs quickly and cleanly. The top grill design enhances visual aesthetics while also providing additional protection to the internal lamp and optics from debris, moisture, and tampering.

Whether used in residential estates, public parks, high-end resorts, or commercial landscapes, the UNB07 is the ultimate choice for lighting professionals who demand flexibility, longevity, and a high-end look.

STEP-BY-STEP INSTALLATION INSTRUCTIONS

Safety Precautions

- Ensure the power supply is turned off before installation.
- Follow local electrical codes and regulations.
- Wear protective gloves during installation to avoid injury.
- Do not install in areas prone to excessive moisture unless properly sealed.
- Ensure all connections are waterproof for outdoor installations.

1. Preparing the Installation Site

- Select a location that provides the best illumination while avoiding areas prone to standing water.
- If installing in-ground, dig a hole large enough to accommodate the fixture and the wiring.
- If installing in concrete or hard surfaces, ensure proper mounting sleeves or junction boxes are available.

INSTALLATION GUIDE FOR UNB07

2. Wiring Connections

- Turn off the power at the main electrical panel.
- Connect the fixture's low-voltage wires to the main power supply using the provided connectors. Use WN12 (Sold Separately) to Waterproof your connection.
- Secure all wire connections and test for continuity before final installation.
- Use waterproof electrical tape or silicone sealant to protect connections from moisture.

3. Fixture Installation

For In-Ground Installation:

- Place the mounting sleeve (if provided) into the prepared hole.
- Insert the fixture into the sleeve, ensuring it is level and secure
- Use gravel and soil for additional stability.

For Concrete/Hard Surface Installation:

- Secure the fixture using mounting brackets or embedded housing.
- Ensure the fixture is flush with the surface for a clean, professional look.

MAINTENANCE TIPS

- **Regular Inspection:** Periodically check the bracket and fixture to ensure they are still securely mounted and functioning correctly.

SAFETY PRECAUTIONS

- Always wear appropriate safety gear, such as gloves and safety glasses, during installation.
- Ensure the mounting surface is capable of supporting the weight of both the bracket and the lighting fixture.
