WARNING

TO REDUCE THE RISK OF FIRE OR INJURY TO PERSONS:

- ✓ Please exercise caution when using the lamp, as it tends to HEAT up rapidly. We recommend taking necessary safety measures to ensure optimal usage.
- ✓ For your safety, please refrain from touching the HOT lens, guard, or enclosure. We recommend waiting for the product to cool down before handling it.
- ✓ To prevent any fire hazards, please ensure that the lamp is kept away from materials that may easily catch fire. We appreciate your cooperation in maintaining a safe and secure environment.
- ✓ For safety reasons, we recommend that only a qualified professional install this electrical product.
- ✓ Before attempting to install this unit, ensure all power connections are off for your own safety.

WARRANTY

- We stand behind the quality of our product and offer a 2 year warranty. Kindly ensure that you keep the proof of purchase as it will be required for any warranty claims.
- Warranty will be void if there is any damage due to improper usage or modification to the fixture.
- Failure to comply with the instruction in this manual may increase the risk of damage or injury and will void warranty.

STB08 Integrated Brass Step Light – Enhanced Outdoor Accent Illumination

The STB08 Integrated Brass Step Light from Abba Lighting USA is a timeless and rugged outdoor lighting fixture designed to bring subtle yet impactful illumination to steps, deck edges, patios, and transitional surfaces. Constructed with a solid brass body and a built-in LED source, this fixture combines enduring material quality with dependable lighting performance.

Carefully engineered to install within horizontal or vertical surfaces, the STB08 creates an elegant low-glare glow that enhances safety while adding visual depth to outdoor environments. Its integrated LED technology eliminates the need for replaceable bulbs, providing consistent brightness and long service life with minimal upkeep. Whether defining walkways, outlining stair risers, or accentuating architectural details, this step light brings both function and refined style to exterior projects.

Integrated LED Illumination

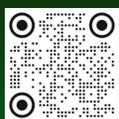

Provides stable, energy-efficient light output with long life and no need for separate bulbs.

Solid Brass Construction

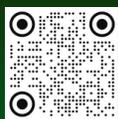

Durable brass housing resists corrosion and outdoor wear while offering a classic appearance that ages gracefully.

12V Low-Voltage Operation

Designed to work with standard low-voltage landscape lighting systems for safe and efficient performance.

Outdoor-Rated Durability

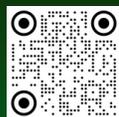

Built to withstand rain, temperature changes, and year-round exterior conditions.

Surface Mount Design

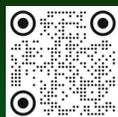

The low-profile installation integrates neatly into steps, deck edges, and patio surfaces for a cohesive architectural look.

Functional & Decorative Lighting

Ideal for improving safety on walkways and steps while delivering a gentle accent glow that complements outdoor design.

Ideal Applications

- Stair riser illumination for improved safety
- Accent lighting for deck and patio perimeters
- Pathway highlighting in landscape settings
- Soft, low-level lighting around garden edges
- Transitional lighting between outdoor zones

Why Choose the STB08 Brass Step Light?

The STB08 Integrated Brass Step Light offers a balance of durable materials, integrated LED efficiency, and classic design that enhances both the safety and aesthetic quality of outdoor spaces. Its choice of solid brass construction, low-profile mounting, and dependable performance make it ideal for a wide range of outdoor residential and commercial lighting needs.

CAUTION:

INSTALLATION GUIDE FOR STB08

STEP-BY-STEP INSTALLATION INSTRUCTIONS

To ensure optimal performance and maximum safety, use this fixture **ONLY** with a low-voltage landscape transformer.

The transformer reduces standard household voltage from 120V to 12V, making it safe and suitable for outdoor applications.

1. Position the Fixture.

- Hold the Fixture against the wall at the desired height and orientation.
- Use a level to ensure the plate is properly aligned (horizontal or vertical as desired).

2. Mark the Drill Points

- With a pencil or marker, mark the screw hole locations through the holes in the mounting plate.

3. Drill Pilot Holes

- Select a drill bit slightly smaller than the mounting screws.
- Drill pilot holes at each marked location.
- Do not drill deeper than the length of the screws.

Concrete Installation:

If installing into concrete or stairs, create conduit raceways inside the formwork using 1-inch dowels and PVC pipe before pouring concrete.

After the concrete cures, remove the dowels and finish the surface of each riser as required.

STEP-BY-STEP INSTALLATION INSTRUCTIONS

4. Prepare the Electrical Connections

We recommend using WN12 Waterproof Wire Nuts (sold separately) for optimal performance and protection.

a. Strip the Wires

- Strip approximately $\frac{3}{4}$ inch (1.9 cm) of insulation from each wire end.
- Ensure the exposed conductors are clean and free of frayed strands.

b. Align the Wires

- Hold the stripped ends together neatly, with no stray strands crossing.

c. Install the Wire Nut

- Insert the aligned wires fully into the wire nut.
- Twist the wire nut clockwise until snug and secure.
- For additional protection, wrap the connection with electrical tape.

d. Test the Connection

- Gently tug each wire to verify a secure connection.

5. Mount the Fixture

- Align the metal mounting plate with the pilot holes.
- Insert the screws through the mounting plate.
- Tighten evenly using a screwdriver.
- Do not overtighten.
- Confirm the plate is firm, level, and free from wobble.

Deck Installation:

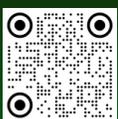

Carefully position the mounting plate within the deck opening before securing.

6. Final Assembly

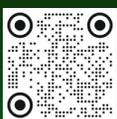

- Place the top cover of the fixture in position.
- Secure it by tightening the side screws firmly.

7. Power & Testing

- Restore power at the transformer or breaker.
- Turn the system on and verify proper operation.
- Adjust the fixture orientation as desired and re-test.

MAINTENANCE TIPS

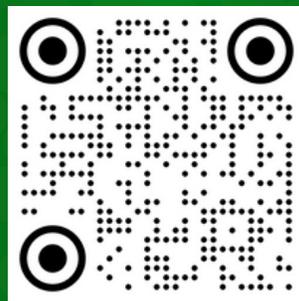

- **Regular Inspection:** Periodically check the fixture to ensure they are still securely mounted and functioning correctly.

SAFETY PRECAUTIONS

- Always wear appropriate safety gear, such as gloves and safety glasses, during installation.
- Ensure the mounting surface is capable of supporting the weight of both the bracket and the lighting fixture.
