PATHLIGHT

01 SELECT YOUR SPOTLIGHT

Select from our timeless cast brass spotlight selection.

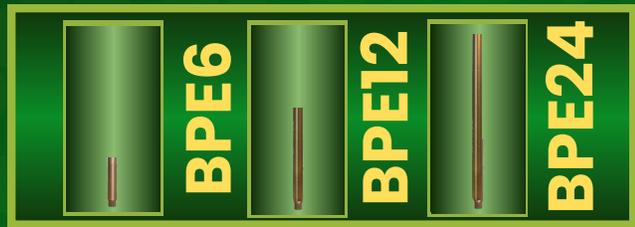

02 SELECT YOUR PREFERRED FINISH

03 CHOOSE YOUR POST

Select from our highly durable posts available in 6", 12", and 24" sizes.

The BTE-SPB Brass Double-Sided Path Light from Abba Lighting USA is a refined and versatile outdoor lighting solution engineered to provide balanced pathway illumination with a fully customizable configuration. Built from solid brass for long-term durability, this fixture delivers elegant low-level lighting while giving designers and installers the freedom to tailor the final appearance and beam pattern to suit each project.

What sets the BTE-SPB apart is its dual-head modular construction. Each side of the fixture is designed to accept a compatible brass spotlight head, allowing users to select the exact spotlight style, beam spread, and light output they prefer. This makes the fixture highly adaptable for residential and commercial landscapes where lighting design precision and cohesive material finishes are essential.

Whether illuminating garden walkways, lining driveways, or accenting architectural features, the BTE-SPB combines premium brass craftsmanship with professional-grade flexibility.
