## PATHLIGHT

### 01 SELECT YOUR SPOTLIGHT

Select from our timeless cast brass spotlight selection.

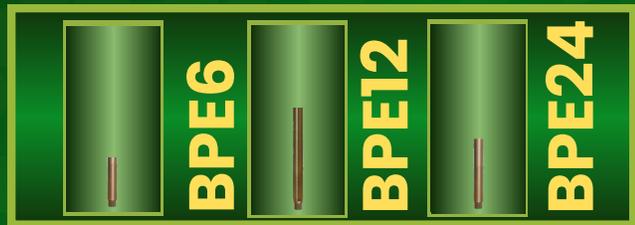

### 02 SELECT YOUR PREFERRED FINISH

### 03 CHOOSE YOUR POST

Select from our highly durable posts available in 6", 12", and 24" sizes.

The BRL2 Brass 90° Coupling from Abba Lighting USA is a purpose-built mounting accessory designed to provide a strong and dependable support point for a single outdoor lighting fixture when used with landscape lighting systems. Constructed from high-quality brass, this coupling creates a secure 90-degree connection that allows your fixture to be positioned with precision on hardscape surfaces, posts, or other mounting points.

Engineers and installers appreciate the BRL2 for its simple yet rugged design — it's ideal wherever a clean, right-angle fixture placement is required without the complexity or extra hardware that multi-fixture solutions may involve. Its brass construction ensures longevity in exterior environments, resisting corrosion and weathering while delivering stable performance through seasonal conditions.

Whether accenting outdoor architectural features, lining pathways, or highlighting landscape focal points, the BRL2 Brass 90° Coupling offers a reliable hardware solution for single-fixture mounting in professional and residential lighting projects.
