WARNING

TO REDUCE THE RISK OF FIRE OR INJURY TO PERSONS:

- ✔ Please exercise caution when using the lamp, as it tends to HEAT up rapidly. We recommend taking necessary safety measures to ensure optimal usage.
- ✔ For your safety, please refrain from touching the HOT lens, guard, or enclosure. We recommend waiting for the product to cool down before handling it.
- ✔ To prevent any fire hazards, please ensure that the lamp is kept away from materials that may easily catch fire. We appreciate your cooperation in maintaining a safe and secure environment.
- ✔ For safety reasons, we recommend that only a qualified professional install this electrical product.
- ✔ Before attempting to install this unit, ensure all power connections are off for your own safety.

WARRANTY

- We stand behind the quality of our product and offer a 3 Year warranty. Kindly ensure that you keep the proof of purchase as it will be required for any warranty claims.
- Warranty will be void if there is any damage due to improper usage or modification to the fixture.
- Failure to comply with the instruction in this manual may increase the risk of damage or injury and will void warranty.

PRODUCT OVERVIEW

The DL04 Flood Light from Abba Lighting USA is a rugged and adaptable outdoor lighting fixture engineered to deliver broad, high-intensity illumination for landscapes, building facades, signage, outdoor courts, or architectural features. This flood light combines dependable performance with flexible installation options to meet the needs of both residential and commercial lighting projects.

Constructed from durable materials that resist corrosion and weather exposure, the DL04 is designed to perform reliably in outdoor environments and provide consistent light coverage where it's needed most. Its broad beam distribution makes it ideal for lighting large open spaces or accenting specific features with a wash of bright, even light. Whether defining outdoor entertainment zones, illuminating entry points, or enhancing nighttime safety and visibility, the DL04 offers dependable power and performance.

HIGH-OUTPUT ILLUMINATION

Delivers wide-area light coverage, perfect for landscape environments, outdoor entertainment areas, and architectural highlight lighting.

SOLID CONSTRUCTION

Built with durable, weather-resistant materials to withstand outdoor conditions, including moisture, temperature changes, and UV exposure.

EFFICIENT PERFORMANCE

Engineered for strong light output with energy-efficient operation, enabling bright illumination without excessive power consumption.

FLEXIBLE MOUNTING OPTIONS

Designed to be easily installed in a variety of outdoor settings, whether on walls, posts, or hardscape features.

OUTDOOR-READY DESIGN

Sealed for reliable performance in exterior environments and built to handle seasonal climate changes.

VERSATILE APPLICATIONS

Ideal for general area lighting, landscape illumination, security lighting, recreational spaces, and architectural accent lighting.

EASY INSTALLATION

The included ABS ground spike facilitates straightforward installation in soil or grass areas, ensuring stability and optimal positioning.

Specification	Details
Model	DLO4 Flood Light
Application	Outdoor flood illumination
Light Coverage	Broad area wash
Mounting Type	Adjustable mounting bracket
Weather Resistance	Outdoor-rated construction
Recommended Use	Landscape, architectural, security

FIXTURE(S) MUST BE INSTALLED IN ACCORDANCE WITH ALL LOCAL CODES AND ORDINANCES.

DO NOT INSTALL WITHIN 10 FEET OF A POOL, SPA OR FOUNTAIN

IDEAL APPLICATIONS

- Exterior wall and façade accent lighting
- Landscape and garden illumination
- Pathway and courtyard flood lighting
- Outdoor recreational and entertainment spaces
- Security and perimeter lighting

IMPORTANT SAFETY INFORMATION

To ensure optimal performance and safety, always use our fixtures ONLY with a low-voltage landscape transformer. This transformer reduces the voltage from 120V to 12V, making it safe and suitable for outdoor use. Failure to follow these guidelines may result in electrical hazards or damage to the fixture.

INSTALLATION GUIDE FOR DL04

STEP-BY-STEP INSTALLATION INSTRUCTIONS

Step 1: Plan Your Layout

- **Determine Placement:** Choose the path or area where the lights will be installed. Measure the distance between lights to ensure even illumination. A typical spacing is 6–10 feet apart, depending on the desired light spread.
- **Consider Power Source:** Ensure that the Spotlight can be connected to a suitable power source. Ensure that the input voltage of the light cable wires is 12V AC/DC. Using improper voltage may cause malfunction or permanent damage to the fixture.

Step 2: Prepare the Ground

- **Dig the Hole:** Using a shovel or trowel, dig a hole where you want to install the Spotlight. The hole should be deep enough to accommodate the ground stake.
- **Ensure Stability:** Make sure the hole is wide enough to allow the ground stake to sit firmly. Test-fit the stake by inserting it into the hole to ensure stability before proceeding.

Step 3: Establish a Secure Electrical Connection

For a dependable and long-lasting electrical connection between the fixture wires and the main line in outdoor or underground installations, follow these guidelines:

- Use a direct burial-rated main cable connector designed to withstand environmental conditions, resist moisture and corrosion, and provide robust insulation.
- We recommend using WN12 waterproof wire nuts (sold separately) for optimal connectivity and protection against the elements.

INSTALLATION GUIDE FOR DL04

Step 4: Wire Connection Instructions

Strip the insulation: Carefully strip approximately $\frac{3}{4}$ inch (1.9 cm) of insulation from the ends of the two wires to be connected. Ensure that the exposed metal ends are clean and free of frayed strands.

Align the wires: Hold the stripped ends of both wires together, making sure they are neatly aligned with no stray strands crossing over.

Twist the wire nut: Firmly twist the wire nut clockwise onto the wires until it is tight and secure.

Insert the wires into the wire nut: Push the aligned wire ends all the way into the wire nut, ensuring that the bare metal is fully covered.

Test the connection: Gently tug on each wire to ensure they are firmly held in place and will not come loose.

Inspect the connection: Ensure that no exposed wires or loose strands are visible. If the connection is not secure, remove the wire nut and repeat the process.

⚠ Note: Always follow local electrical codes and regulations when performing electrical work. If unsure or uncomfortable with electrical tasks, consult a qualified electrician. Safety should always be a top priority.

FIXTURE ASSEMBLY & INSTALLATION

Step 5: Bulb Installation

- Remove the top part from the fixture.
- Insert the appropriate bulb ensuring it is seated securely in the socket.
- Reattach the top part to the fixture, making sure it is properly aligned and fastened.

INSTALLATION GUIDE FOR DL04

Step 6: Mounting the Fixture

- Insert the spike mount into the ground, ensuring it is vertical and stable for proper positioning.
- Adjust the light angle as needed to achieve the desired illumination.

Step 7: Power On & Final Adjustments

- Turn on the power to test the fixture.
- Make any final angle adjustments to ensure optimal lighting coverage.
- Verify proper operation before completing the installation.
- Bury the main cable underground for safety and protection from external elements.
- Do not exceed the maximum wattage specified for the fixture to prevent overheating or damage.
- Regularly inspect and maintain your lighting system to ensure long-term reliability.

MAINTENANCE TIPS

- **Regular Inspection:** Periodically check the bracket and fixture to ensure they are still securely mounted and functioning correctly.
- **Surface Maintenance:** Monitor the mounting surface, particularly trees, to ensure the bracket does not cause damage as the tree grows.

SAFETY PRECAUTIONS

- Always wear appropriate safety gear, such as gloves and safety glasses, during installation.
- Ensure the mounting surface is capable of supporting the weight of both the bracket and the lighting fixture.
